Hello!

We are really looking forward to meeting you!
For technical questions between **15 November 2026 and 30 January 2027, please contact us by email.**
Thank you, and see you soon!

Technical specifications

Caravan dimensions:
Length: 4.50 m
Width: 2.00 m
Height: 2.30 m

Required clearances around the caravan:
From the audience: min. 5 m
To either side: min. 3 m (from the drawbar)
Behind the caravan, from walls, fences, etc.: min. 3 m
Overhead: min. 2 m

See layout diagram on page 3!

Minimum access height: 2.40 m
Minimum access width: 2.20 m

Set-up and dismantling times

- 1 hour set-up + 1 hour break/warm-up before the performance.
- For multiple performances at the same location:
  At least 1.5 hours between shows for resetting the stage and a break.
- For multiple performances at different locations:
  45 minutes dismantling + transfer to the next location + 1 hour set-up + 1 hour break = 2 hours 45 min.
- Dismantling: 45 minutes.

Venue requirements

- Vehicle-accessible site. Suitable surfaces: grass, gravel, asphalt or paving stones; no mud.
- We perform in the afternoon and evening. Please avoid direct, intense sunshine for everyone's comfort. A shaded area is requested.
- If access is through a gate or opening in a fence, the minimum clearance is:
  Width: 2.20 m
  Height: 2.40 m
- For performances beneath a roof or tree, a clear height of at least 4.50 m (measured from the ground) is required.
- 230 V power supply. We bring extension cables. If the connection point is more than 50 m away, please provide one or more cable reels.
- Please provide beer-garden benches or other seating for the audience. The company brings 7 beer-garden benches.

IMPORTANT:
To ensure a smooth and safe performance, we kindly ask organisers to plan pedestrian routes so that they do not pass through or directly behind the performance area during set-up and the show.

If needed, a passageway can be kept clear behind the audience area. A building wall or similar structure behind the caravan is also very helpful, as it provides additional protection for the performance.

Equipment provided by the company:

- Electroacoustic sound system (PA)
- Spotlights / interior lighting for the caravan
- Temporary structure: caravan stage
- 7 beer-garden benches
